EXPERIENCE

Bimsmith Market

Duration: November 2019 – Present.

Description: BIMsmith Market is the leading building product research tool for architects and designers to discover, compare, and download thousands of building products for Revit, AutoCAD, SketchUp, and more - all for free. From furniture to floor drains, you'll find it here.

Technologies: ASP.NET Web Api, ASP.NET MVC, Angular, MS SQL, Entity Framework.

Role: .NET developer

Bimsmith Website

Duration: November 2019 – Present.

Description: BIMsmith is a completely free platform for building professionals to research, configure, and download building product data from the world's leading building product manufacturers.

Technologies: ASP.NET MVC, Angular 2, MS SQL, Entity Framework

Role: .NET developer

Bimsmith User Analytics

Duration: January 2020 – Present.

Description: This project is directly aligned with a Google Analytics for the certain defined group of projects.

Technologies: ASP.NET Web Api, Angular, MS SQL, Entity Framework

Role: .NET developer

Bimsmith Central Back Office

Duration: April 2019 – Present.

Description: The purpose of this project is managing Bimsmith projects.

Technologies: ASP.NET Web Api, Angular 2, MS SQL, Entity Framework

Role: .NET developer

LP1

Duration: December 2019 – January 2020.

Description: QArea was asked to develop a fully-fledged SaaS that would allow banks and financial institutions to easily manage loan requests from clients. The solution includes manageable roles and permissions for individual users, sends regular auto-generated reports, has a customizable notification system, and the ability to auto-assign user queries to available bank employees.

Role: .NET developer

Car & Truck Rental Service

Duration: December 2019 – January 2020.

Description: The Car & Truck Rental web portal gives people the ability to rent vehicles, thus covering personal vehicle needs for those traveling around Canada, moving their home, towing a boat, or moving their belongings to a new university dorm. The client's plan was to transform the cross-platform and cross-browser portal into a Software as a Service (SaaS) solution and expand to other countries and markets.

Technologies: Angular 7, ASP.NET MVC

Role: .NET developer

April 2018 – November 2019, IQueSoft.

Responsibilities: develop new modules of web applications and support already created apps.

Bloom roofing services

Responsibilities: develop and support administration panel, work with AngularJS, MongoDB, Azure deployment.

Mol learning system

Responsibilities: develop and support administration panel, develop customer portal, work with Umbraco, Entity Framework, AngularJS, SQL Server, Octopus configuration and deployment.
