

# Volodymyr K.

## Front-end/Mobile Developer

### GENERAL QUALIFICATION

- Very good at JavaScript-based technologies;
- Practical experience in different programming Languages and Technologies;
- Experience in Adobe Flex stack: Flex, Flash, ActionScript 3, Robotlegs MVC;
- Ready to work with challenging projects, keen on complex and interesting tasks.

<b>Frontend:</b>	HTML5, CSS3, TypeScript, Angular Material, LESS, ES6, XML, JavaScript, Sass, jQuery, ActionScript, Moment.js, Bootstrap, RxJS.
<b>Frontend Frameworks:</b>	Angular 2+, Vue.js.
<b>Backend:</b>	C#, C, C++.
<b>Backend Frameworks:</b>	.Net, ASP.NET MVC.
<b>Base(methodology):</b>	OOP, MVC.
<b>Database:</b>	MySQL, MS SQL Server.
<b>Mobile:</b>	Ionic, Cordova, Cross Platform, Nativescript.
<b>CRM:</b>	Odoo.
<b>Project management tools:</b>	Jira, Trello, ClickUp.
<b>Operating Systems:</b>	Mac OS, Windows.
<b>Version Control systems:</b>	GIT, Github, GitLab, Bitbucket.
<b>Technologies:</b>	Firebase, VM VirtualBox, VMware, REST API, Swagger, JSON, AJAX.
<b>Graphic Tools:</b>	Figma, Sketch, Adobe Photoshop.
<b>Build Tools:</b>	Jenkins.

## COMMUNICATION SKILLS

- **English** - Intermediate.
- **Ukrainian** - Native.
- **Russian** - Fluent.

## EXPERIENCE

### Web Development for a Dry Cleaning & Laundry Service

**Role:** Software Developer.

**Description:** Website for the provision of laundry services, with payment by card delivery, integration with Google maps of shipping areas, connection with Facebook, Twitter. It highly integrated with Google Analytics and different social networks.

**Technologies:** Node.js, Angular 2, MongoDB, Express.js, Angular 6.

**Duration:** June 2019 - September 2019.

### Web application for managing work processes

**Role:** Software Developer.

**Description:** Project is the web application for managing the work processes of small manufactures. It allows users to log work, manage goods produce progress, manage workers and their salary. Also, the application allows making orders for selling and buying goods. And manage the statuses of orders in progress.

### Recruitment Platform for Part-Time Job Seekers

**Role:** Software Developer.

**Description:** It is a recruitment platform for the human resources industry that helps connect part-time job seekers and employers through end-to-end services.

**Technologies:** jQuery, Python, HTML, HTML5, Odoo, CSS.

**Duration:** June 2019 - September 2019.

### Software for uploading and transferring files

**Description:** Downloadable software for uploading and transferring files for the purpose of file back up and synchronization. Downloadable computer software used to store and share data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content with others via global computer networks, mobile telephones, and other communications networks.

**Technologies:** React Native, Angular 8 Project.

**Role:** Software Developer.

**Duration:** September 2019 - Present.

### **DueFocus.com - Time Tracking software**

DueFocus - comprehensive time-tracker and self-management tool for IT specialists.

I was one of the lead developers on the project. We've developed a cross-platform desktop application on Angular and Electron.js for all the most popular operating systems ( Mac Os, Linux, Windows ) from scratch and brought a product to market. On this project we've worked a lot with sockets and microservices structure of our backend, real-time communication with the server, synchronization with multiple clients, and offline mode.

**Backend:** Golang, Node.js, MongoDB, MySQL.

**Frontend:** JavaScript, HTML, CSS, React, Electron.js.

### **Jira plugin (Mr. Knack)**

<https://marketplace.atlassian.com/plugins/com.ilighten.stand-up-knack/server/overview>

**Role:** Developer.

Back-end, front-end Development.

**Backend:** Node.js, MongoDB, socket.io.

**Frontend:** JavaScript, React, D3.JS.

### **System for news company**

**Role:** Team Lead. JavaScript Developer.

Article creation system with online collaboration for authors of one well-known news company. The site has two main features: a rich text editor with online collaboration (like in google docs), and vote and ranking systems that allow to select the best articles for publishing.

**Backend:** Node.js, MongoDB, socket.io.

**Frontend:** JavaScript, React, Redux.

### **NSPIRD**

**Role:** Front-end Developer.

**Description:** An integrated system to manage R&D from concept to delivery. All R&D is conducted in Projects. InspiRD Roadmap builds R&D plans and roadmaps from these projects. InspiRD Invest enables analysis of project budget requests and allows managers to guide the R&D portfolio. Hence most of the work in InspiRD Roadmap involves entering projects.

**Technologies:** Adobe Flex, ActionScript3/MXML, Robotlegs MVC, Java, BlazeDS, Oracle, CSS, JavaScript, Git.

**Duration:** 2017.

### **HostViz Mobile**

**Role:** Mobile Developer.

**Description:** VizExplorer's hostViz couples robust customer relationship management with task management features to give hosts the intelligence and reporting their need to offer quality guest service, develop players and track their own performance. Centralize all player data for

sales intelligence. Target and promote VIP players. Manage host activities to execute on your player development plan. Track and promote host performance. Empower hosts to manage their own sales pipeline. Arm your hosts with a mobile CRM. Increase host communications for the optimal guest experience.

**Technologies:** NativeScript, Angular2/4, TypeScript, RxJS, Promises, CSS, XML, npm, Git, Scrum, REST API.

**Duration:** 2017-2018.

## **US CARGO**

**Position:** Front-end/Mobile Developer, Project Manager.

**Description:** The system is designed for truck drivers. It allows you to search for and accept the cargo using a gadget, and communicate with the dispatchers. Also, the system determines the location of the driver and the closest cargo to him.

**Technologies:** NativeScript, Angular2/4, TypeScript, RxJS, Promises, HTML, CSS, XML, npm, Git, Scrum, REST API.

**Duration:** 2018.

## **EDUCATION**

- **2015 – 2018**, Computer Academy Step, Lviv. Graduate, major - "Software developer";
- **2015 – 2016**, Cisco Networking Academy, Graduate, major - "IT Essentials: PC Hardware and Software".
